Workshops

Timetable

Wednesday
February 04 | 2026

03:30PM - 05:00PM

Room 1

Mr. Mohammed Khalaf

Casting and Offloading Errors, Fixes, and Proof

Room 2.0

Ms. Hayat Alsaleh

Advanced Wound Therapy: VAC Therapy and Beyond

05:30PM - 07:00PM

Room 1

Ms. Reem Althobaiti

Mr. Jeffryl Pena

Inside the Dressing Room: Choosing the Right Dressing for the Right Wound

Room 2

Mr. Rakan Alhareth

Ms. Hanan Kalawon

Diabetic Foot Screening Gaps, Errors, and Fixes

Workshops

Overview

**Mohammed
KHALAF**

Casting and Offloading Errors, Fixes, and Proof

Wednesday, February 04

This workshop will cover:

- Common mistakes in casting: Learn about frequent casting and offloading errors that can lead to complications.
- Practical fixes: Discover actionable solutions to prevent common mistakes in diabetic foot care.
- Proven results: Understand the real-world impact of correct casting and offloading in wound healing

**Hayat
ALSALEH**

Advanced Wound Therapy: VAC Therapy and Beyond

Wednesday, February 04

This workshop will cover:

- Understanding VAC therapy: Learn the basics and benefits of vacuum-assisted closure (VAC) for wound healing.
- Real-world applications: Discuss clinical cases where VAC therapy delivers significant improvements
- Next-gen solutions: Explore emerging technologies and treatments that complement VAC therapy in advanced wound management.

Workshops

Overview

Reem
ALTHOBAITI

Jeffryl
PENA

Inside the Dressing Room: Choosing the Right Dressing for the Right Wound

Wednesday, February 04

This workshop will cover:

- Choosing wisely: Learn how to match the correct dressing to each wound type for optimal healing.
- Practical tips: Explore key factors like moisture balance and infection control when selecting wound care materials.
- Case examples: See real-world examples of how the right dressing can make a difference in healing times and outcomes.

Rakan
ALHARETH

Hanan
KALAWON

Diabetic Foot Screening Gaps, Errors, and Fixes

Wednesday, February 04

This workshop will cover:

- Identifying gaps: Uncover common mistakes and overlooked areas in diabetic foot screening.
- Effective fixes: Learn how to address these errors for more accurate and reliable screenings.
- Improved outcomes: Understand how closing these gaps improves patient care and reduces complications.
